AGORA PRS | FALL 2026

Tuesdays · 11:30–12:30 · Auditoire Paternot · AGORA, Level 02

DATE	SCHEDULE	SPEAKER	TITLE	RESEARCH GROUP & INSTITUTION	LOCATION
September 15	11.30 - 12.00	Dr. Stephanie Tissot	SOxHIF: Your One-Stop Platform for Spatial Multi-Omics and Histology	Spatial multiOmix Histology Facility (SOxHiF)	Paternot auditorium
	12.00 - 12.30	Helena Stoka	IL2v-engineered PRDM1 KO T cells enhance anti-tumor function in immunosuppressive solid tumors	Corria & Coukos Lab, UNIL	
September 22	11.30 - 12.30	Prof. Yoon Seok Kim	Engineering and Decoding Neuron–Cancer Interactions	SV, EPFL	Paternot auditorium
September 29	11.30 - 12.30	Dr. Aerin Yang	Engineering Molecular Recognition: From Protein Interactions toward Immune Signaling	SV, EPFL	Paternot auditorium
October 6	11.30 - 12.00	Dr. Jean-François Mayol	Every Cell has a story and a face: New Dimensions in Cytometry	Flow cytometry Facility – FCF	Paternot auditorium
	12.00 - 12.30	Victoria Fay	FLIMME: a high-resolution, minimally invasive endoscope for label-free head and neck cancer margin identification	Tolstonog Lab, CHUV	
October 27	11.30 - 12.00	Dana Moreno	Statistical modelling of CDR3 sequences provides robust quality control for TCR repertoire datasets	Gfeller Lab, UNIL	Paternot auditorium
	12.00 - 12.30	Dr. Bastien Dolfi	Targeting Lipid-Associated Macrophages to Overcome Immunosuppression in Brain Metastasis	Joyce Lab, UNIL	
November 10	11.30 - 12.00	Dr. Sofie Møller	FMRP-regulated tumor growth and immune barrier function in glioblastoma	Hanahan Lab, EPFL	Paternot auditorium
	12.00 - 12.30	Aurelie Fanchette	Clonal Tracking of Loco-Regional Progression and Distant Metastasis in HPV-related Head and Neck Cancer	Tolstonog Lab, CHUV	
November 17	11.30 - 12.00	Leon Potgeter	A micro-vascularized Multiple Myeloma on-chip model for CAR-T cell characterization	Arber Lab, CHUV	Paternot auditorium
	12.00 - 12.30	Pablo Hernandez Lopez	Exploring chemotherapy-induced cell states in colorectal cancer	Huelsken Lab, EPFL	
November 24	11.30 - 12.00	Dr. Luigi Bozzo	Cellular Imaging Facility - Light microscopy resources and new imaging possibilities	Cellular Imaging Facility – CIF	Paternot auditorium
	12.00 - 12.30	Nuno Alfaiate	Cancelled	Corria & Coukos Lab, UNIL	
December 1	11.30 - 12.00	Maylis Touya	AI tools to predict disease progression and fatigue in patients with glioblastoma	Hottinger Lab, CHUV	Paternot auditorium
	12.00 - 12.30	Dr. Mike Altounian	How FMRP Tunes Translation to Set the Stress-Survival Threshold in Pancreatic Cancer	Hanahan Lab, EPFL	
December 8	11.30 - 12.00	Dr. Benoît Duc	TBA	Joyce Lab, UNIL	Paternot auditorium
	12.00 - 12.30	Coline Moulin	TBA	Corria & Coukos Lab, UNIL	
December 15	11.30 - 12.00	Merten Lab	TBA	Merten Lab, EPFL	Paternot auditorium
	12.00 - 12.30	Elisaveta Platonova	TBA	Bassani Lab, UNIL
